

CONSTANT GOD - Whatever the thought, the deed, the possibility - there is God, always there, knowing our thought and awaiting our request for His insight. 10/14/2010

God's Problem

I won't keep you in suspense. It's tomorrow.
That's it! God's problem is tomorrow!

It's always there. No matter the offense, tomorrow remains. And tomorrow God is still good¹ and loving and will accept our repentance, and forgive us and strengthen us for the chore ahead.

That person you would become with God's help . . . that person can always be, tomorrow. Its always there delaying your decision, then your action, ever present but just out of reach. Equivalent to "later" but with a positive spin, as if an appointment is being set for action.

Forward looking,. . . so much better than never, yet too often the same plaguing today, daring it to be great.

1) That is quite a statement "God is still good . . ." Do say? That's like saying God is God. God defines good. Good is derived from God.
